Alejo Schlegel

EU CITIZEN (GERMAN PASSPORT)

Available for Remote across EU

Full Stack Engineer · React / TypeScript / Node.js / Cloud (AWS)

Madrid, Spain | schlegale@gmail.com | +34 613 298 901 | linkedin.com/in/alejoschlegel | github.com/schlegale

Full Stack Software Engineer with **4+ years of production experience** developing web applications, distributed services, and cloud integrations across e-commerce, robotics, and SaaS platforms. Experienced in building reliable user interfaces and backends with **React, TypeScript, Node.js, and AWS**. Focused on code maintainability, clean system design, and pragmatic problem-solving. Bilingual (English C1 / Native Spanish). Holder of an **EU (German) Passport**.

PROFESSIONAL EXPERIENCE

Frontend / Full Stack Engineer
Feb 2025 – Present

Bonprix (Otto Group) · Madrid, Spain / Remote

- Developing modular UI components in **React and TypeScript** for core customer-facing e-commerce applications.
- Working with **SpacetimeDB** to evaluate and implement real-time state synchronization across active clients.
- Managing cloud environments and deployment workflows using **AWS and Terraform** following team DevOps standards.
- Collaborating with cross-functional teams to maintain scalable component patterns and clean architecture.

Software Developer
May 2024 – Feb 2025

Terra · Remote

- Engineered and deployed web platforms for global enterprise clients and international initiatives, including SEI (Fintech) and the UN-backed Global Fund for Coral Reefs.
- Focused on Core Web Vitals, asset optimization, and query tuning to ensure responsive user experiences across high-visibility public portals.
- Contributed to non-profit web solutions including **Ruby's Rainbow**, maintaining accessibility and mobile responsiveness.

Software Engineer (Robotics Platform)
Apr 2023 – May 2024

WELBO · Amsterdam, Netherlands (Remote)

- Developed cloud-based robot control interfaces in **React** and supported microservices using **RabbitMQ and Feathers.js**.
- Contributed to operations dashboards used to monitor fleet activity, device connectivity, and operational logs.
- Worked on native Android support utilities in **Kotlin** and maintained chatbot service integrations on **Google Cloud**.

Full Stack JavaScript Developer
Jun 2022 – Apr 2023

Kenjo · Madrid, Spain

- Developed features across **Angular and React Native** apps; engineered internal administrative tooling for team workflows.
- Implemented backend data import scripts and managed cloud storage utilities on **AWS (S3, Lambda)**.

Tech Solutions Specialist
Nov 2020 – Dec 2021

Thinkion · Argentina

- Provided technical troubleshooting for database, backend, and integration tickets in coordination with development teams.

TECHNICAL SKILLS

FRONTEND
